AquaSafety

Lifting & hoisting

AquaSafety is the trusted supplier and inspector for all your lifting and hoisting equipment. We analyse your specific business situation and help you fine tune the lifting and hoisting applications to suit your business operations.

We can also offer inspection and certification of your lifting and hoisting applications. We are an approved and certified certification institute.

Rigging

AquaSafety can supply, inspect, and certify your rigging in accordance with the applicable standards, in order to guarantee you the highest quality.

We are your one stop shop for a wide range of rigging & lifting equipment, including:

- Shackles
- Lifting clamps
- Web slings/round slings
- Lifting hooks
- Cables
- Chain slings and combinations
- Connecting links
- Hydraulic lifting equipment
- Hoists (mechanical, electrical, pneumatic)

Lifting equipment

AquaSafety has been a trusted supplier of lifting equipment, web slings, tension straps, chains, and slings for years. AquaSafety supplies, certifies, and inspects all your equipment with speed and expertise.

Maintenance

Prevent serious accidents by maintaining your lifting equipment on time. Our approved and qualified inspectors expertly perform repairs and maintenance work.

Certifying lifting equipment

Lifting equipment must be certified by an approved institute. AquaSafety is the go-to, accredited certification institute for all your lifting equipment. We use a tensile tester, and can certify, maintain and repair your lifting and hoisting equipment, fall protection, and NEN 3140 work equipment.

Qualified inspector

You can rely on our inspectors' expertise and experience. They can inspect and certify your lifting equipment and offer actionable advice.

Education & Training

AquaSafety is specialised in providing safety training. We can also provide load handling training. Prevent unnecessary accidents by following this practical training course. The course teaches you how to safely move heavy loads by hoisting and lifting.
